

Govt-Themed Phishing Attack Targets Indian Citizen

MH CERT

Advisory ID: CERTMH_CA_2025_02

Date: 09th May 2025

Summary

Following the Pahalgam terror attack on April 22, 2025, rising tensions between India and Pakistan have escalated into a digital conflict. Multiple hacker groups from both sides have been actively launching cyberattacks.

MH-CERT is monitoring several Pakistan-origin cyberattacks in recent days. With the ongoing cyberattacks, we are advising Citizens with respect to sudden rise in malicious activities targeting personal devices, emails, and networks across India.

These attacks include the distribution of malicious PDF files linked to phishing domains, aiming to steal data and compromise systems. These attempts are believed to be a direct fallout of the geopolitical escalation and are part of a broader campaign of cross-border cyber aggression.

Citizens are urged to remain vigilant, avoid suspicious emails or downloads, and report any cyber incidents to MH-CYBER PORTAL.

Another good decision by Modi Govt as suggested by Super Star Akshay Kumar:*.......

Only one rupee per day, that too for Indian army. In yesterday's cabinet meeting, the Modi government opened a bank account for the modernization of the Indian Army and for soldiers who are injured or martyred in the war zone. In which every Indian can contribute any amount as per his/her own choice. It starts from Rs.1 and is unlimited.

This money will also be used to purchase weapons for the army and paramilitary forces. NEW DELHI, *As suggested by people on Mann Ki Baat, Facebook, Twitter and WhatsApp, Modi government finally took a decision today suggested and opened Army Welfare Fund Battle Casualty Fund According to the control of t

This is the master stroke of film star Akshay (4) of No one and stop in the from becoming a superpower. If even 70% of India 1/0 cross population investorate one rupee daily in this fund, that one rupee will the note 100 cross of day 1006 crores in 30 days and 36000 crores in a year. Pakistan saminual decrees by get as a streven Rs 36,000 crore. We spend 100, 1000 rupes even the process work by it we give one rupee to army, India will definitely become as superpower.

Your money will be deposited directly in the Arms Arms Canada Casualty Fund of the Ministry of Defence. It will be useful for military personnel

So join this campaign of Modiji and help the army directly.

Nothing can be achieved by shouting bad words about Pakistan, blocking roads and making statements. Implement the thoughts of Modi and the people of the country and strengthen your country's army. So countries like Pakistan and China can show their status without any help from any country Bank details are given below.

Bank Details:

Canara Bank

A/C Name: Army Welfare Fund Battle Casualties,

A/C No: 90552010165915 IFSC Code: CNRB0000267

South Extension Branch, New Delhi.

The above image shows a post from PIB (Press Information Bureau) Fact Check, which has labelled a message about an "Army Welfare Fund Battle Casualty Fund" as "MISLEADING."

- The message falsely claims:
 - o The Modi government has opened a bank account where Indians can donate as little as ₹1 per day to support army modernization and help injured soldiers.
 - o The initiative was supposedly suggested by actor Akshay Kumar.
 - It includes bank account details for Canara Bank.
 - o It states that if 70% of Indians contribute ₹1 daily, it would generate ₹36,000 crores annually.

Phishing Attack Targeting Government Entities and Citizen

Malicious documents are being circulated under the guise of official government reports and updates. These documents may appear legitimate, but they contain embedded links that redirect individuals to fake login pages designed to steal personal and sensitive information.

What to Look Out For:

- **Suspicious Links:** Be cautious of the documents contains links, especially those that direct to websites with unusual or suspicious domain names.
- **Sensitive Topics:** Attackers exploit current geopolitical events, such as the Pahalgam terror attack, to increase engagement with phishing content.
- **Fake Login Pages:** Clicking on malicious links will redirect individuals to a fake login page that asks for sensitive credentials, including government or Defence-related emails (such as those ending in @gov.in or @nic.in). These credentials are then sent directly to the attackers.
- **Unsolicited Emails/Attachments:** Be cautious of unexpected emails related to national security or government matters. Do not open attachments or click links unless you're sure of the source.

How to Protect Yourself

- **Verify the Source:** If you receive an email or document claiming to be from a government agency, always verify the sender's email address. Official communication will come from recognized government domains.
- Check Links Carefully: Hover your cursor over any links (without clicking) to check if the URL matches the official website. Do not click on suspicious or unfamiliar links.
- **Do Not Enter Personal Information:** Never enter your login credentials, especially government or organizational email details, on websites you are not familiar with.
- **Use Antivirus and Security Software:** Ensure that your antivirus and security software are up to date to protect against malicious attachments and links.
