CYBER YODDHA

Episode 3: Enemy in the Shadows

OPERATION SINDOOR

Special Edition

About

Cyber Yoddha brings the hidden battles of the digital world to life through storytelling and visuals.

At its heart is the Deshmukh family, a middle-class Marathi household, who discuss cybercrime and the realities of cyber warfare.

The mission is simple: make cyber safety easy to understand, remember and practice. By presenting complex issues in a comic format, Cyber Yoddha builds awareness, encourages safe online habits and guides citizens toward timely help through Helpline 1930 and www.mhcyber.gov.in

.

More than entertainment, Cyber Yoddha is a tool of empowerment. It helps readers recognize scams, strengthen digital trust and inspires youth toward ethical careers in cyberspace shaping a safer digital society for all.

About Mahacyber

Established in 2016, the Maharashtra Cyber Department is at the forefront of combating cybercrime in Maharashtra. As one of India's pioneering dedicated cybersecurity departments, MahaCyber employs a multi-faceted approach to address the growing menace of cyber threats. Our focus encompasses the detection, prevention, and prosecution of cybercrimes, as well as fostering cybersecurity awareness among Maharashtra's citizens.

Episode 3:Enemy in the shadows
(*Transparent tribe exposed*)

Series-01

HELLO SUNANDA

HELLO..HOW IS EVERYTHING AT HOME? IS EVERYONE ALRIGHT?

ALL FINE, BUT THE HOUSE FEELS EMPTY WITHOUT YOU

ACHAAA..ARE YOU TAKING YOUR MEDICINE ON TIME...??

HAAN SUNANDA ALWAYS ON TIME...!!

AAI....HOW ARE YOU ?? WE ARE MISSING THE HOME-COOKED FOOD

ARRE...I AM FINE. BUT LISTEN OPERATION SINDOOR HAS STARTED. EVERYTHING SAFE YOUR SIDE?

HMM...THINGS ARE TENSE..

THE NATURE OF WAR HAS BECOME INVISIBLE NOW... EVERY CITIZEN IS A TARGET IN THIS CYBERWAR.

For Cybercrime complaints: Call 1930 or log on to mhcyber.gov.in

Vishal's phone vibrates

Call from office..!!

Hello....Ok I am coming immediately.

Vishal Beta Is there something serious..??

Yes Baba… Something very serious. I need to leave at once to office.

Vishal rushes to office

For Cybercrime complaints: Call 1930 or log on to mhcyber.gov.in

Vishal returns home tired...

Vishal beta what happened..??

Pakistan based cyber-espionage group APT36 has intensified its attacks.

They tried breaching our defense communication nodes.

Aggressively and unethically.

AHHH!

Cowards hiding in shadows striking without honor.

For Cybercrime complaints: Call 1930 or log on to www.mhcyber.gov.in

Are they...
Hackers...??

More than hackers. They are State-sponsored spies using unethical and deceptive methods.

Active since 2013 controlled by Pakistan's ISI.
Their mission is to spy, steal and sabotage.

GRRR!

They target anyone who serves the nation.Soldiers, scientists and students all are prey to their unethical games.

GRRR!

Cowards..behind keyboards..!!

For Cybercrime complaints: Call 1930 or log on to www.mhcyber.gov.in

Even teachers and scientists?

Yes...Every small piece of data matters to them and every attack is a cowardly one.

Cowards in the shadows, attacking without honor...that is the true face of Pakistan

Yes...They lure people with fake offers, scholarships and mails designed to deceive.

Exploiting trust is their weapon.

For Cybercrime complaints: Call 1930 or log on to www.mhcyber.gov.in

APT36 uses a dirty malware arsenal known as RATs — like Crimson, Eliza and Capra.

RAT? Huh... the animal...??

No..Siya.....RAT means Remote Access Trojan. They spy,listen and steal secretly from the shadows.

They hide inside apps like telegram,whatsapp we trust for messaging,storage, and collaboration. Thus...turning normal tools into there cheap weapons.

For Cybercrime complaints: Call 1930 or log on to mhcyber.gov.in

But I use these apps in my daily life...they even help me with my school projects...!

Siya ...Ordinary tools become dangerous when used by the dishonest.

One click can open window to our secrets.So..Think before you tap.

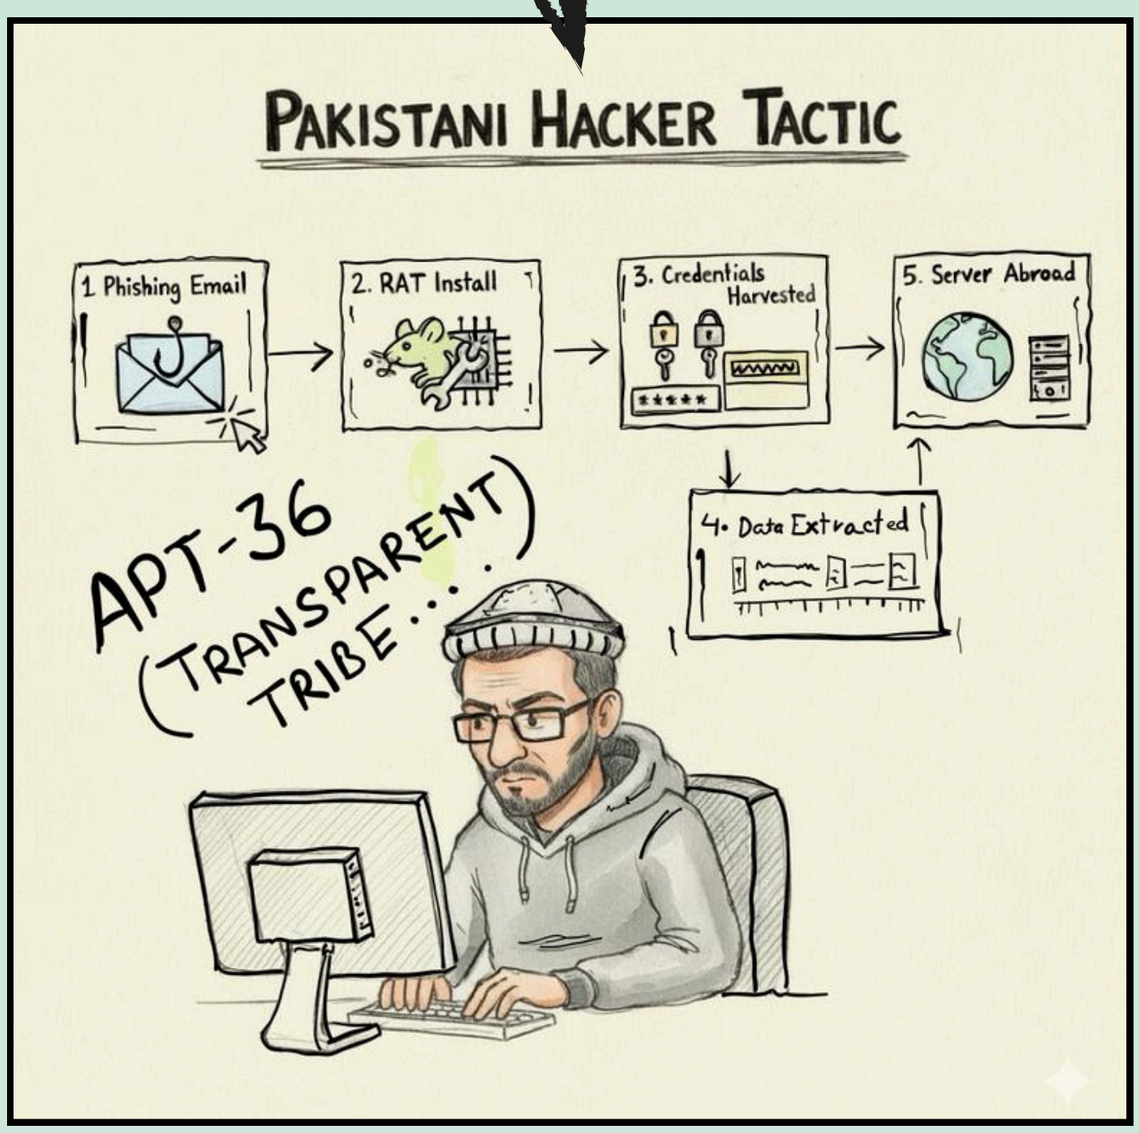
And...APT36 deliberately targets scientists, government officers and diplomats trying to create chaos.

This is so serious... but don't we have a counter-strategy...?

Haan baba...We do...Detection, reporting and quick isolation...And a coordinated national response when needed..

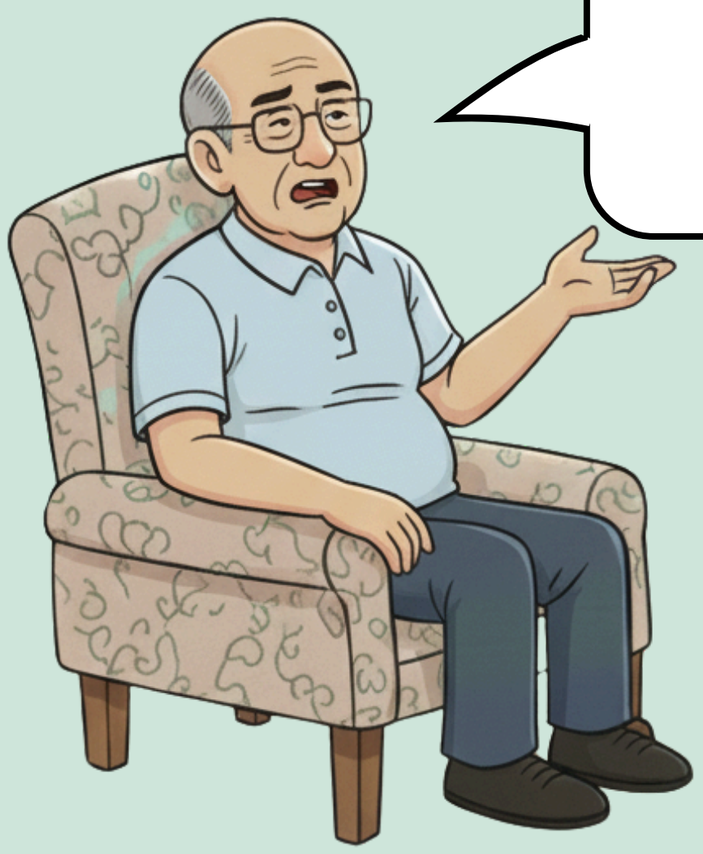
For Cybercrime complaints: Call 1930 or log on to mhcyber.gov.in

Anatomy of these attack includes



Every stolen file feeds their propaganda and their plans...

It is Like termites eating a house from the inside....unseen and dishonorable.



But India responded there cowardly attack fast...Our teams blocked their command channels and neutralized infected nodes.

True..cyberyoddha now fight with knowledge confronting dishonor with courage...

Hum bewkuf nahi banenge..!!.

We have exposed pakistan before. We will do it again and show the world their true face.

For Cybercrime complaints: Call 1930 or log on to mhcyber.gov.in

Cyber Yoddha is dedicated to the nation—empowering citizens and honoring Op-Sindoor, defenders of both our soil and cyberspace...

In the war of shadows,
truth is our light.
From borders to browsers
Bharat will never bow to
cowardice.
Every Bhartiya is a Cyber
Yoddha
